

The new **ERA** of cleaning

SPRINTUS

Professional Cleaning Equipment

Discover the new age of professional cleaning.

The ERA series sets new standards in the industry and symbolises a new ERA in professional cleaning. Unprecedented features are finding their way into the new model series, which consists of the three models, EVO, TEC and PRO, and differ primarily with regard to how they are equipped. In addition to the striking modern and open design, all models combine the integrated cable rewind and whisper-quiet operation. The top model, ERA TEC, shines with unique selling points, such as a USB connection including a mobile phone charging function and a filter compartment for spare filter bags. The ERA PRO with an integrated touch display is aligning itself with the topic of industry 4.0 for the first time and is the world's first digital dry vacuum cleaner with a Bluetooth connection and a cloud-based fleet management system.

ERA PRO

ERA TEC

ERA EVO

ERA EVO The price-performance winner

Professional Cleaning Equipment

The quiet ERA EVO is versatile, compact, reliable and a true powerhouse. The integrated cable rewind makes the safe and practical storage of the signal-red 10m power cable possible.

If required, you can change the cable in just a few simple steps and without using any tools.

High-quality filter media, such as the standard fleece filter basket, the HEPA13 filter bag, and the HEPA13 filter cartridge guarantee clean blow-out air at all times and are particularly suitable for those who suffer from allergies or for the cleaning of sensitive areas, such as hospitals, nursing homes and kindergartens. The extra-large, tear-resistant 9-litre fleece filter bag guarantees a high volume of dirt absorption and long working intervals, without frequent and annoying filter bag changes.

The power regulation that can be adjusted on the device allows for the EVO to be adapted to any floor covering. And what's best: already for small order quantities, we equip the ERA EVO with your logo and strengthen your company image and brand.

Features

Standard operating LED in blue

Your brand. Your company image. We imprint your logo.

Integrated cable rewind with open design.

Tool-free cable changing

Mechanical power regulation

Tool-free removable HEPA13 filter cartridge

All-round elastic impact edges and a continuous sliding cam ensures a smooth transition over door thresholds.

Washable fleece filter basket

HEPA13 fleece filter bag

Ø 120 mm

Ø 60 mm

Extra-large wheels and castors ensure a high level of agility and stability

Tool-free interchangeable motor protection filter

Four storage slots for accessories and three parking positions as standard.

Item no. **ERA EVO** 117.001
2 x 0,5m aluminium tube, 2.0m suction hose, fleece filter basket, HEPA13 fleece filter bag, HEPA13 filter cartridge, crevice nozzle, combined upholstery / furniture nozzle, 280mm combi nozzle, 10m power cable, pluggable, signal red

FLEECE FILTER BAGS:

Upholstery / furniture nozzle 106.028
Crevice nozzle, 230mm 101.023
Fleece filter basket 117.101
HEPA 13 filter cartridge 111.132
Power cable, 12m, pluggable, signal red 117.133

The ERA TEC is consistently continuing the innovative ERA series, thereby guaranteeing top performance at an incredibly quiet 49 dB in ECO mode. The TEC can therefore be used around the clock, at any time of the day, even in busy and sensitive areas, such as hotels or in office rooms.

Should it be necessary, the spare filter bag compartment saves unnecessary legwork and loss of valuable working time should no replacement filter bags be close at hand.

The standard USB port and the optional storage box allow you to charge your mobile phone directly on the vacuum cleaner without setting aside your mobile anywhere on the property or losing sight of it. Alternatively, the storage box is also suitable as a practical beverage holder, for cleaning agents, or for carrying microfibre cloths.

The fill level indicator in red indicates that the filter bag needs to be changed or clogging.

ERA PRO

The world's first dry vacuum cleaner that rises to the challenges of Industry 4.0.

Our free ERA PRO app is available from the App Store and Play Store. For download, please scan the respective QR code.

With the first-time digitisation of commercial dry vacuum cleaners, the ERA PRO dry vacuum cleaner by SPRINTUS sets new benchmarks in professional cleaning.

The interactive touch display can be customised with your logo using the SPRINTUS APP. In this way, new customers can be acquired, and the corporate design can be adapted and underscored. A language selection (DE, ENG, FR, IT) can be made. In the event of a fault, solution suggestions are shown on the display.

In combination with the integrated Bluetooth interface, important device data such as operating hours, daily run time, location data can be transferred into the cloud-based fleet management and connected to commonly used ERP systems. Run times can be checked with the touch of a button, and property calculations can be adapted. In the display, additional

data can be stored and called up, e.g. Property, user and customer data. The user can call up spare parts drawings, user manuals, data sheets and other device data at any time.

Via the interactive touch display, run times, faults, maintenance activities, as well as the date and time can be read. The home screen is individually adjustable. For example, property and user data can be continuously input and displayed.

Web portal

SPRINTUS browser-based fleet management system allows you to centrally manage all ERA PRO dry vacuum cleaners and keep an eye on everything at all times. In the general overview, all basic information concerning your ERA PRO is shown in a compact manner. You can call up data relevant for each ERA PRO, such as location, property names, users, daily run times, maintenance dates, such as the BGV A3 for example, or faults at any time. With the synchronisation via the SPRINTUS APP, all data is displayed in real time in the web portal.

Reports
In the detail view, you have access to all relevant reports concerning your ERA PRO. This helps you to make the right decisions and keep your fleet in optimal operational condition. Other-cleaning equipment located on the property can be created and be centrally managed via the web portal.

Your advantages at a glance:

- Overview of the status and run times of all devices
- Faults and maintenances are displayed individually
- visualisation of the devices by map on a property basis
- extensive software functions and reports
- professional, customisable interface for all common ERP systems

Overview of all devices, including location, status messages and user information

The new generation of brush vacuum cleaners:

Unbeatable comfort! The ERA PRO in combination with the electric suction brush achieves excellent results on carpets and carpeted floors. Thanks to its permanent-magnet electric drive and high-level vacuum, it cleans deeply and gently. The carpet is literally combed out by the rotating brush and dirt is transported towards the suction nozzle and sucked in. Even tenacious dirt on the carpet, such as hair or threads, is absorbed. With the remote control on the Ergo handle, you can conveniently switch the vacuum cleaner and the brush on and off at the touch of a button, without tediously having to bend down. Thanks to the stainless-steel telescopic tube, the working height can be conveniently adjusted to any user and makes it possible to work efficiently and free of fatigue.

The figure shows an ERA PRO set including an electric vacuum brush.
